

MTS India Section & MTS SRM Student Chapter Presents

MTS India National Level Story Writing Competition on

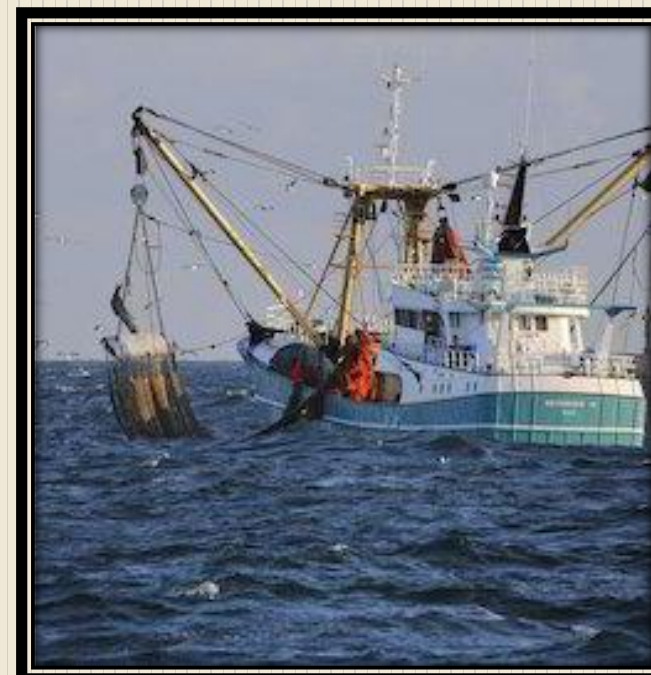

F-TEC

FISHING TECHNOLOGY – ENERGY & COMMUNICATION

To commemorate World Ocean Day, UN Decade of Oceans Science for sustainable development

Online
Submission
Starts from
June 11, 2020

About the Competition

This competition is an initiative by MARINE TECHNOLOGY SOCIETY INDIA SECTION & MTS SRM Student Chapter with the support of MTS HQ. MTS India Section successfully organized Techsurge on Fisheries Technology in 2018 followed by MTS SRM Student Chapter conducted Techathon in 2019 on maritime communications. This competition envisages, young engineers on the importance of communication skills and conceptual thoughts for their career development. Such skills are essential to become professional leaders in the areas of teaching, research and industrial practice.

Story Themes

- 1) When fishing in mid-sea, fishermen loose communication with the shore or fellow fishermen fishing in the vicinity and no satellite communication is available. Suggest an alternate mode of affordable communication technology that can be used by fishermen in such emergency situations?
- 2) When a fishing vessel's engine outage/breakdown happens while at sea, how can the vessel draw alternate energy from renewable energy source sufficient to return to the shore?
- 3) What is the role of fishermen in controlling ocean pollution, including marine plastic?
- 4) Design a new innovative fish identification technique to be fitted inside the fishing net. This is to help fishermen and the Department of Fisheries to ascertain the fish species caught for fisheries resource management?

Select a Photograph and Correlate with the above given scenario and write in your words

Photographs can be accessed from the website of MTS India Section (www.indiamts.com).

Photograph from other free sources should be acknowledged and if required approval of the photographer to be obtained and submitted with your entry. MTS India Section is not responsible for any copyright issue.
