

MTSIS Event : SAve Competition:

NIOT in association with MTS India Section conducted a national level competition for students pursuing engineering degree to visualise and design Autonomous Underwater Vehicles. Design concept review was conducted at NIOT Campus on 22nd Jan 2016, in which 20 teams comprising of 86 students from various engineering institutions presented their design concepts. National expert committee reviewed them. Out of the 20 teams, 14 teams were qualified for the final competition. The winning team would be deputed to participate in the RoboSub competition to be held in San Diego USA in 2017.
