

MTSIS Event :Second National Training on Sensors and Ocean Data Collection:

Precision sensors and scientific methods of data collection are vital for carrying out accurate oceanographic models and climate change studies. Seabird Scientific in association with NIOT organized a National training on Sensors and Ocean data collection during February 9-11, 2016. Experts from Sea bird Scientific Inc, USA imparted training to more than 60 participants from 18 Institutions of Research, Scientific, Academia and Industry. The training covered recent trends in scientific data collection and instrument technologies. MTS India Section was also associated for this event. The trainers of M/s. Sea-Bird Scientific, USA, Mr.Dave Murphy, Ms.Stephanie Jaeger Member - MTS Planning and Dr.Ian David Walsh, Vice Chair MTS Ocean Observation imparted training to the participants

Second National Training on Sensors and Ocean Data Collection NIOT Chennai.

9th - 11th February 2016
