

Opportunity runs deep™

The Marine Technology Society India section was incorporated on 5th October 2015 to promote interaction among the Industries and Institutes in India and also to attract young talent in the field of marine technology. The activities will be in-line and based on the guidelines of Marine Technology Society USA. The India section is very active and had organised 103 Events so far on a wholesome. As a societal outreach to impart knowledge on ocean science and technology among school students so for ten event student covering more than 1000 students, and other activities have been successfully executed. MTS India Section has been active and vibrant with Nine students sections conducting parallel activities.
