

IIT Delhi School Student Symposium

The student section conducted a student symposium on Marine technology on 7th February. Entries of graduates and post graduate students were invited by circulating mails in Engineering Colleges. We received many entries and 6 students were shortlisted for presentation in IIT Delhi. On 7th February the symposium started in which various dignitaries participated. Cdr. Gaurav Sharma (an alumnus of National Defence Academy) and Dr. Sharbari Banerjee (Assistant Professor at Amity University) were the judges. The symposium was conducted at Bharti building in IIT Delhi at 1300 hr. Prof. Monika Aggarwal, Faculty advisor started this event by heartily welcoming everybody. She briefed the audience about various opportunities and mentorship activities of the student section. The session presided by Prof Arun Kumar (Head of Centre of Applied Research in Electronics) who gave a talk on 'An Overview of Underwater Acoustic Vector Sensor'. Then the audience was invited for high tea where they got the opportunity to have an informal discussion with dignitaries.
