

NEW HORIZON COLLEGE OF ENGINEERING - MTS

Seminar on Marine Technology- Report

The marine technology society is a professional society that serves the international community of ocean engineers, technologists and educators. The goal of the society which was founded in 1963 is to promote awareness, understanding, advancement and application of marine technology. The association is based in Washington.

The society consists of 29 technical disciplines and presently has 17 sections including overseas in Japan, Korea and Norway. In addition to this MTS has 23 student sections at colleges and universities with various fields of study.

Ms. Athira Ajayakumar, Master of ceremony (MC) has given a brief introduction of MTS to the gathering.

The Inauguration program started with lighting of lamp by eminent personalities.

Commodore Shekhar , Eminent Speaker of the program lighting the lamp

Dr. Nisha KC R, Professor, Department of ECE has welcomed the gathering. The guest speakers were honored by presenting saplings as a token of appreciation

Welcome address by Dr. Nisha KCR, MTS Branch Councillor

Ms. Athira Ajayakumar, Master of ceremony (MC)

The eminent speakers were Dr. Venkatesan, Mr. Nandakumar Krishnan, Commodore S Shekar.

Dr. Venkatesan, Scientist G and Program Director at the National Institute of Ocean Technology, gave a detailed structure on MTS. He covered from the founding of MTS to the present Society we know now. Additionally, he spoke on mission and aim of MTS. He elaborated on the organisation and the benefits students can attain by being a member of the MTS Student Chapter.

Dr. Venkatesan, chair MTS India addressing the gathering

Nanda Kumar, CEO of Elektroniklab India Pvt Ltd, was the next speaker, who gave an insight to the technology present in the Marine industry. He emphasised on how Marine Technology should be given importance as much as Space technology. Just as the oceans are vast, he piqued interest in students by telling how vast the opportunities are in the field of Marine Industry.

Nanda Kumar, CEO of Elektroniklab

Commodore S Shekar spoke on the Engineering aspects present in the Marine Industry. With his specialization in Submarine, he inspired students by giving them a peek to his life whilst he was deployed by the Indian for various assignments. He encouraged students to be a part of the Merchant Navy and gave insights to the job profiles one can achieve in the field. In addition to that, he justified on how dignified one can be, if they are posted in the Indian Navy.

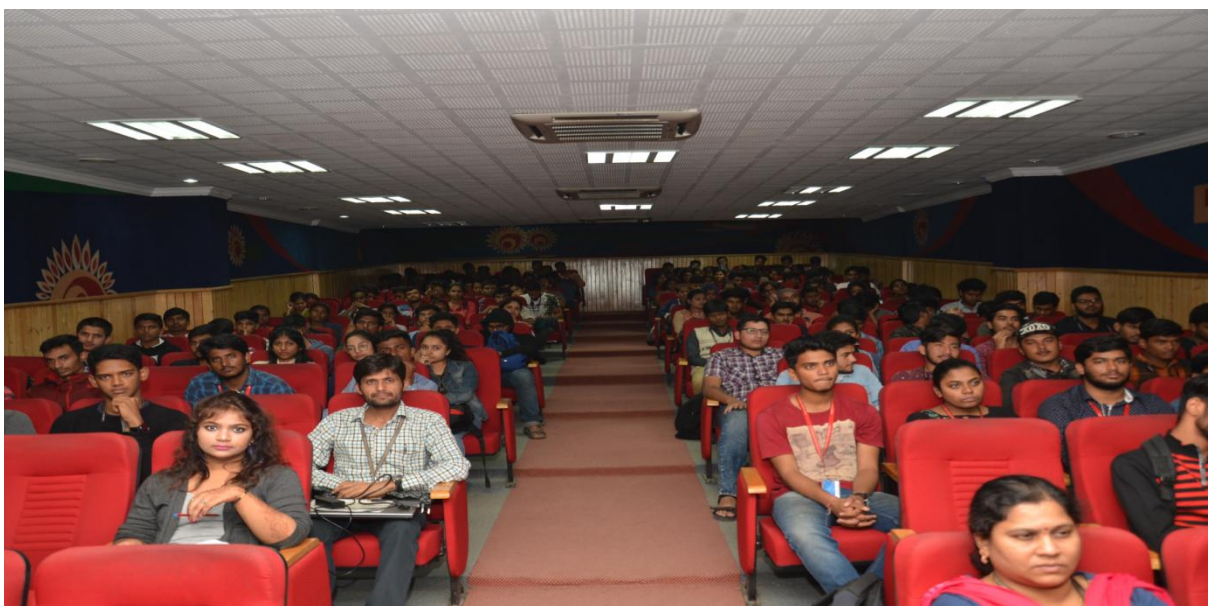

The session was interesting and interactive. Students were exploring opportunities in marine systems and interacting lot with the speaker on further advancements in marine systems. The speakers spoke about marine engineering, ship design, ship building and ship operations, oil – gas exploration and exploitation. All the speakers emphasized on how important it is to be a part of MTS

and gave a chance to students to pose their questions on the session. Students couldn't have been more happier with their answers.
