

MTS INDIA SECTION TO ORGANISE

MTS TECHSURGE - AI FOR THE OCEANS

ABOUT THE EVENT

This event is proposed to be jointly organised in association with ASCE SRM Student Chapter & Norinco India Pvt Ltd. This event is meant for introducing Artificial Intelligence and modern techniques that can explore the ocean in its deepest level and explore the oceans' resources. Oceans drive key planetary systems that affect us on land. Artificial intelligence empowers marine conservationists to dive deep into a new chapter of marine exploration. AI potentials can be utilized to efficiently extract energy resources, discovering new medicines, apprehending climate change, and finding endangered species. This event will bring the industry and academic experts to discuss about their innovation and exploration in ocean.

HIGHLIGHTS

- Industry talks
- Invited Lectures
- Discussion forum
- Industry Conclave
- Product Demonstration
- Start Ups Initiatives
- Student poster presentation

February
4
2023
